

“
I am thrilled with the results - it's the right colour, it flatters, it fits, it's well made, it hides the bits it needs to, and that excitingly effective power lining gives me that extra bit of confidence.

Why bespoke?

Whether you simply like to be different, have a specific design in mind or struggle to find the perfect fit, Biondi Bespoke is for you. It is also great for clients who wish to cover scars or moles, who require fuller or smaller cup sizes or are looking for fashionable mastectomy swimwear. We also offer embroidery finishes, very popular with brides wishing to personalise bikinis for their honeymoon.

Amazing choice

At Biondi we offer the most comprehensive bespoke swimwear service in the UK. Choose from a luxurious selection of fabrics including a stunning array of over one hundred solid colours and fifty inspiring prints, plus beautiful embellishments such as charms, rings or beading. We can also design matching skirts or sarongs, to create a look that is truly unique to you.

The process

Our expert stylists will advise you on style, cut, fabric and colours to ensure you look and feel fabulous! On average the service requires three appointments, including a minimum of two fittings (more appointments may be necessary if the garment is more complex). Our bespoke bikinis are made on-site in the boutique workshop, by our professional couture seamstress, so you can be sure of the finest finish and quality.

How long does it take?

The service typically takes around four-six weeks from initial consultation through fittings to receipt of finished garments. If you need your swimwear in a hurry, please ask about our special two-week express service.
